EXPERIENCE

AI/LLM Engineer II

Phenom People

April 2025 – Present

Hyderabad, Telangana

- Built an **LLM evaluation framework** (pass@k, LLM-as-judge rubric) gating every release across all 12 nodes, instrumented with **LiteLLM + Langfuse** for per-node cost, latency and full-trace auditability — continuously monitoring agent behaviour and curbing hallucinations.
- Ran the self-hosted LLM inference service as a deployable platform — Helm-packaged deployments, custom chat templates per model, and **OpenTelemetry** instrumentation feeding metrics dashboards so per-model latency and throughput were visible in production.
- Built the configuration service in **FastAPI** on **MongoDB** — a global signal registry with definition versioning that keeps downstream consumers stable across config changes, feature groups, audience and scope rules, and tenant-scoped overrides — exposed through an internal resolve endpoint that **Temporal** workflows call at workflow start to decide which checks run for a given candidate and job.
- Architected **chatbotCXAgent**, a production multi-agent system on **LangGraph** (12 orchestrated nodes) spanning intent recognition, planning, dialogue-state management and tool routing — with **Graph RAG** retrieval over enterprise knowledge and document repositories via FAISS vector search and a Neo4j graph for multi-hop, policy-aware grounding.
- Engineered tool-calling agents that execute governed actions under **XGrammar constrained decoding** and schema-validated JSON guardrails, raising tool-routing accuracy to **91.9%** and eliminating malformed tool-call failures in live traffic.
- Held the production model deployment to a golden baseline of 1.0s median and **1.4s** P95 latency with zero failures across **5,510** requests, taking the service's automated testing coverage from **7% to 78%**.
- Built the detection and decisioning layer of an enterprise hiring-integrity platform — an **LLM orchestration engine** that performs evidence correlation across signals and produces reviewer-facing assessments with supporting rationale — backed by a **policy-driven rules engine**, per-tenant risk configuration, and audited review workflows across the signal lifecycle.
- Owned deployment automation and production support — containerized deployments via **Docker** and **Helm** across staging environments, and debug of production incidents by querying service logs in **ClickHouse** to resolve customer tickets.

Full Stack Engineer

Blueleaves Farms

May 2022 – February 2025

Hyderabad, Telangana

- Owned end-to-end delivery of production systems (POS, CRM, inventory, procurement, e-commerce) on Node.js, Firebase Cloud Functions and REST APIs — with role-based access control and CI/CD — integrating multiple internal systems and cutting manual operational errors by roughly 90%.

PROJECTS

IndexNotes — AI Knowledge Graph for Scientific Papers | *Neo4j, Ollama, PyMuPDF, Python, Docker*

- Built an automated Graph RAG pipeline ingesting research papers (PDF → local-LLM extraction → structured JSON → Neo4j), creating 40+ concepts and 17+ typed relationships, with quantized local models via Ollama for entity/relationship extraction.

TECHNICAL SKILLS

Eval, Observability & Guardrails: LLM Evaluation (LLM-as-judge, pass@k), OpenTelemetry, Langfuse, LiteLLM, Model Monitoring, Constrained Decoding (XGrammar), Schema Validation, Hallucination Mitigation

GenAI & Agentic Frameworks: Agentic / Multi-Agent Systems, LangGraph, LangChain, Tool/Function Calling, Model Routing, RAG & Graph RAG, Prompt Engineering, LLM Fine-Tuning (QLoRA, SFT)

Backend, Infra & Platforms: Python, FastAPI, REST APIs, Microservices, Docker, Helm, Temporal, Kafka, AWS (EC2/S3/SageMaker), GitHub Actions, CI/CD, Linux

ML & Serving: PyTorch, vLLM, HuggingFace PEFT, Unsloth, Embeddings / Vector Search (FAISS), Production MLOps

Databases: MongoDB, ClickHouse, PostgreSQL, Neo4j, Redis, Firebase

EDUCATION

Andhra Loyola Institute of Engineering and Technology

Bachelor of Technology in Mechanical Engineering

Vijayawada, Andhra Pradesh

August 2018 – May 2022
